OKPOS®

Always right there in front of your payments and transactions

i-POS

Practical and Reasonable POS System

- User friendly design
- Easy to install and maintain
- Tidy cabling
- Front touch panel, waterproof and dust resistant
- Various uses (Various options)
- Product reliability & safety
- Green IT

Contrary to existing normal POS systems with black color and box type design, I-POS is the new POS systems which focused on user-friendliness and curved design with two tone black and white Color. It adopted the true-flat display to POS systems in the same ways as the display of smart phone and smart pad for the first time in Korea.

As the I/O(input/output) ports are placed on the top of its panel, it can make easy installation and tidy cabling possible. In addition, it adopted "hand screws" function to the MSR(Magnetic Stripe Reader), HDD and Main board. That is, you can easily install it with your bare fingers without using any tools.

Honorably enough, OKPOS Co., Ltd. was selected as an official supplier of POS systems for 2012 YEOSU EXPO in Korea and successfully finished operating I-POS systems around 200 units at many stores and restaurants in the 2012 YEOSU EXPO.

Always right there in front of your payments and transactions

www.okpos.co.kr

User-centered design

- True-flat display for the first time in Korea (i-9000 White)
- All-in-one design(monitor, body, MSR & customer display(optional))
- Two-tone black & white color

Easy to install & maintain

- I/O ports are placed on the top of the panel
- Easily install and maintain with your bare fingers without using any tools.
- Power detachable type (AC adapter)

Tidy cabling

- Applied covers in I/O ports and the back side of the stand to hide messy ports and cables

Front touch panel, waterproof and dust resistant

- Front panel IP55 compliant for waterproof and Dust Resistant

CPU & Chipset	Intel Dual Core (Atom D2550 1.86GHz), Intel® NM10
Memory	2GB DDR3 SoDIMM (up to 4GB)
HDD	SATA-II 2.5" 320GB
Display & Touch	15" TFT LCD (1024x768) 5-wire Resistive Touch
External I/O	2xPS/2, 4xCOM, 2xLAN, 1xVGA, 6xUSB 2.0, Audio
Speaker	Built-in Speaker 1W x 2
OS Supported	Microsoft® POSReady 2009, POSReady 7
Power	External adaptor DC12V 5A(60W) INPUT AC 100~240V/50~60HZ OUTPUT DC 12V/5A
Dimension (WxDxH)	389x205x322 (mm) / 389x226x322 (With DUAL)
Weight	6.9 kg
Mounting	VESA Compliance (75mm)
Fanless Operation	YES
Optional	MSR: ISO Track2 / Track1&2 / Track1&2&3 CDP: 20 Characters X 2 Lines Dual Monitor(Customer Display): TFT LCD 9.7" (1024x768) Digital Video Recorder: 4-Channel (INTERNAL XYVIEW PCI CARD) Wireless LAN: External USB Module Wall Mount: VESA Compliance (75mm) Smart Card Reader: USB type, EMV#1

Various uses (Various options)

Basic type

Dual monitor

Wall Mounting

Support DVR

Product reliability & safety

- Proven product reliability and safety through EMC test, KC, CE and FCC by Authorized Testing and Certification Bodies

Green IT

- Intel Atom processor offers low power consumption
- low energy consumption can reduce unnecessary heat and expand the life span of POS components.
